## projects:

### demo-lenslocked

photo gallery application that allows users to login, create galleries and upload photos. implemented using gorilla mux, gorm with a psql database. deployed using caddy.

### file download

command line program that will download a file over HTTP in parallel. utilizes context, net/http, io and os modules.

### HikeKnow

project managed a group project that developed a hiking trail app that gathered weather and trail data on local hikes and presented daily recommendations based off of information collected from three separate API's. redeployed on my own setting up webpack from scratch.

### listably

joined a short term program (The Collab Lab) to gain coding experience in an agile collaborative environment. created a mobile web app with three other participants by pair programming, participating in code reviews, and receiving hands-on mentoring from experienced developers.

## experience: \*\*more information available upon request

### **web developer - Bigs & Littles NYC - Winter 2020**

- created website for local non profit using squarespace
- implemented additional features such as accordion drop downs, working with 3rd party applications and specific styling to meet clients needs and requests

### **production manager - Colossal Media, Jan 2015 - June 2017 \*\***

- Forecasted resourcing capacity for weekly production, and managed expectations for all jobs including red-flagging possible issues
- Communication lead to client, production warehouse and intra-agency departments on all media jobs totaling over \$24 million in revenue
- Developed timelines and sourced equipment for most efficient execution of all production jobs

### **national activation manager - Colossal Media, Oct 2013 - Jan 2015 \*\***

### **account coordinator - Clear Channel Airports, Aug 2011 - Oct 2013 \*\***

## skills:

### **software / technical**

Javascript (ES6) · NodeJS · Express · Passport · OAuth · Bookshelf · PostgreSQL · MongoDB · Python · React · Redux · AngularJS · HTML · CSS · SCSS/SASS · jQuery · MustacheJS · HandlebarsJS · Git · RESTful Architecture · Golang · Gorilla/Mux · Gorm

### **familiar with / learning**

Linux · VIM · Webpack · Nginx · Bulma · Redis · Caddy · Bootstrap

## education:

**Ardan Labs: GoLang Foundations Bootcamp** - April 2021

**NYC Data Science Academy:** Data Analysis and Visualization in Python: NYC - Feb 2019

**DevLeague Computer Programming Bootcamp:** Honolulu, HI - March 2018

**University of Nebraska - Bachelor of Science in Business:** Lincoln, NE - May 2011

## volunteer experience:

**Code Nation - Introduction to Web Development Volunteer Teacher:** 2019 - 2021
